ERASMUS+ PROJECT NEWSLETTER | ISSUE 2 | JUNE 2026

WELCOME BACK!

The Beyond the Screen project is gaining momentum. This issue covers two key milestones — our first and second webinars — both held in June 2026.

✓ KEY MILESTONE REACHED

The Self-Assessment Tool is complete! Available in 6 languages, powered by machine learning, and already tested with real educators — this is a major step forward for the project.

🖥️ WEBINAR 1 | 8 June 2026

First Webinar Successfully Completed!

Are you confident learning online? Do you feel motivated in digital environments?

These were the questions at the heart of our first webinar, bringing together participants from across Europe to explore digital resilience in e-learning.

What participants did:

- Discovered the challenges of online learning and the importance of digital readiness
- Explored practical strategies to succeed in digital environments
- Tested the project's self-assessment tool, which measures:
 - Motivation
 - Confidence
 - Willingness to learn online

The tool sparked self-reflection and provided valuable insights into online learning behaviours.

📅 17 July WHAT HAPPENED SO FAR?

📅 17 July Kick-Off Meeting (November 2025, Bulgaria): Partners gathered in Sofia to launch the project, finalize the work plan, and discuss the self-assessment tool's framework.

🔧 Self-Assessment Tool — Completed! The project's ML-powered questionnaire is now fully developed, available in 6 languages, and ready for use by educators across Europe.

WEBINAR 2 | 22 June 2026

Staying Motivated as an Online Educator

How can visual storytelling help educators stay engaged in online teaching? Our second webinar brought together educators, trainers, and adult learning professionals from across Europe for a creative and interactive session.

Common challenges shared by participants:

-  Black screens & silent learners
-  Screen fatigue & motivation loss
-  Technical difficulties & one-way communication
-  Digital overload

A challenge turned into a learning moment: When a technical issue prevented the planned breakout rooms, participants didn't stop — they turned it into a live case study of the very barriers online educators face every day.

Missed the session? Watch the recording at: <https://beyondthescreenproject.eu/workshop/>

TOOLS INTRODUCED

VIDCASTS Short video-based stories combining storytelling, emotion, and practical learning. They use relatable "Do vs Don't" scenarios to help educators navigate real teaching situations.

COMIC STRIPS Simple visual narratives that make complex teaching situations accessible, engaging, and memorable.

These tools will be further developed at the upcoming LTTA in Cyprus!

What's next ?

 **Blended Workshop (October 2026, Cyprus):** 15 educators from across Europe will test the self-assessment tool, explore vidcasts and comic strips, and co-create content for the Interactive E-Trainers Manual.

 **First Vidcasts and Comic Strips (Late 2026):** Pilot versions of the animated videos and comic strips will be released for feedback. Stay tuned for sneak peeks!
